

Report on
“Energy, Food and Water Nexus – analysis in
Macroeconomic consistency framework”

Submitted To

NITI Aayog, Government of India, New Delhi

By

Integrated Research and Action for Development (IRADe)

New Delhi

30th November, 2017

The Study was sponsored with financial support of NITI Aayog, Government of India and conducted by Integrated Research and Action for Development (IRADe), New Delhi

Acknowledgement

We thank the NITI Aayog for financially supporting this study. We Thank Mr Anil Jain , Ex Advisor P&E, NITI Aayog for guiding us through this study through his valuable comments during the course of this study. We also thank the members of the advisory group formed by the NITI Aayog to guide the studies in the SGWG working group under the India US energy dialogue for their participation in our presentations during the course of the project. We would also like to thank Mr Rajnath Ram, Joint Advisor, NITI Aayog, and the administration at NITI Aayog for their cooperation in due course of the project

Project Team:

Dr Jyoti Parikh, Executive Chairman, IRADe

Dr Probal Ghosh, Head Modelling Group, IRADe

Mentor:

Dr Kirit Parikh Chairman, IRADe

Disclaimer:

Integrated Research and Action for Development (IRADe), New Delhi has received the grant under the Research Scheme of NITI Aayog, 2015 to produce the document. However NITI Aayog shall not be held responsible for findings or opinions expressed in the document prepared. This responsibility rests with Integrated Research and Action for Development (IRADe), New Delhi.

Chapter 0 Table of Contents

Chapter 0 Table of Contents	3
Chapter 1 Introduction	5
Scope of the Research study:.....	5
Deliverables.....	5
Objectives of the research study	6
Chapter 2 Methodology for the Research study	7
Structure of the Model	7
Model Assumptions	9
a) Population.....	10
b) Resource Reserves and Growth Assumptions	10
c) Energy Sector Policies	11
d) Macroeconomic Assumptions	12
Calculation of Water Demand.....	14
Agriculture	14
Domestic	16
Industry	17
Power Generation:.....	18
Scenarios	19
Chapter 3 Impact of Growth on Water Demand	21
Chapter 4 Impact of Low carbon pathway on Water Demand.....	27
Chapter 5 Impact of Low carbon pathway on Water Demand.....	33
Chapter 6 Summary and Conclusions	35
Chapter 7 References.....	38

TABLE 2.1 TOTAL, RURAL AND URBAN POPULATION PROJECTION	10
TABLE 2.2 RESOURCE GROWTH ASSUMPTIONS	10
TABLE 2.3 ASSUMPTIONS OF EXOGENOUS PARAMETERS FOR DAU SCENARIO	11
TABLE 2.4 POWER SECTOR POLICIES SCENARIO	11
TABLE 2.5 TRANSPORT SECTOR POLICIES IN DAU SCENARIO.....	12
TABLE 2.6 SECTORAL CLASSIFICATIONS	12
TABLE 2.7 MACROECONOMIC ASSUMPTIONS	13
TABLE 2.8 TRADE, EXPORTS & IMPORTS ASSUMPTIONS.....	14
TABLE 2.9 CROP WISE AREA UNDER CULTIVATION AND IRRIGATION (000 HECTARES) FOR THE YEAR 2007-08	15
TABLE 2.10 CROP WISE WATER NEEDS FOR IRRIGATION.....	15
TABLE 2.11 CROP WISE IRRIGATION WATER DEMAND (BCM) IN 2007-08.....	16
TABLE 2.12 AREA-WISE CONSUMPTION OF WATER PER CAPITA PER DAY (IN LITRES).....	17
TABLE 2.13 WASTEWATER GENERATION AND WATER USE BY DIFFERENT INDUSTRIES IN INDIA, 2004.....	18
TABLE 2.14 TECHNOLOGY WISE WATER WITHDRAWAL PER UNIT GENERATION	18
TABLE 3.1 IMPACT OF ECONOMIC GROWTH ON WATER DEMAND (BILLION CUBIC METERS)	26
TABLE 4.1 IMPACT OF LOW CARBON PATHWAY ON WATER DEMAND (BILLION CUBIC METERS).....	32
TABLE 6.1 GOVERNMENT OF INDIA AGENCIES PROJECTION OF WATER DEMAND	35
TABLE 6.2 SUMMARY PROJECTION OF WATER DEMAND FROM VARIOUS SCENARIOS ANALYSED	35
FIGURE 3.1 GROSS DOMESTIC PRODUCT UNDER DIFFERENT SCENARIOS	21
FIGURE 3.2 PER CAPITA AGGREGATE CONSUMPTION	22
FIGURE 3.3 AGRICULTURE GDP	22
FIGURE 3.4 CROP WISE IRRIGATED AREA IN THOUSAND HECTARES IN REFERENCE MEDIUM GROWTH SCENARIO.....	23
FIGURE 3.5 INDUSTRIAL GDP	24
FIGURE 3.6 POWER GENERATION IN LOW GDP GROWTH SCENARIO	24
FIGURE 3.7 POWER GENERATION IN MEDIUM GDP GROWTH SCENARIO.....	25
FIGURE 3.8 POWER GENERATION IN HIGH GDP GROWTH SCENARIO.....	25
FIGURE 4.1 MACRO ECONOMIC IMPACT OF LOW CARBON PATHWAYS ON PER CAPITA CONSUMPTION AND GDP	28
FIGURE 4.2 LOW CARBON PATHWAY IMPACT ON FOOD (IRRIGATED AREA) AND ENERGY (POWER GENERATION)	28
FIGURE 4.3 POWER GENERATION AND CAPACITY IN REFERENCE-MEDIUM SCENARIO	29
