Data Gaps in India's Energy Sector

Prayas (Energy Group) is a member of the energy data management sub-group of the Sustainable Growth Working Group (SGWG) constituted under the Indo-US energy dialogue. This report has been submitted to the SGWG for its consideration.

Preparation of this report has benefited from the feedback received at a workshop organized by the Ministry of Statistics and Program Implementation in September 2015 that was attended by providers as well as users of energy data in India. In addition, discussions with experts from various energy data and analysis agencies in the US provided useful insights. The authors would like to thank all of them for their valuable inputs.
